U.S. SEED EXPORTS FOR THE MARKETING YEAR THROUGH DECEMBER AND COMPARISONS WITH PREVIOUS YEAR

List of Tables

lage 1 age	Language of the state of the st
Trade review2	Beet31
Total U.S. exports, by kinds4	Cantaloupe
Exports to the EC, by kinds5	Carrot33
Exports by destination, all kinds6	Cucumber35
Forage10	Lettuce36
Alfalfa, uncertified10	Onion38
Alfalfa, certified11	Pea39
Bentgrass12	Pepper41
Bluegrass, Kentucky13	Radish42
Clover, ladino14	Spinach43
Clover, red	Squash44
Clover, other16	Sweet Corn45
Fescue, tall	Tomato47
Fescue, other19	Watermelon49
Orchard grass20	Other vegetables51
Ryegrass, annual21	Total vegetables53
Ryegrass, perennial22	Flower
Sudan grass23	Grain & Misc57
Timothy24	Corn, except sweet $1/$
Other grasses25	Grain sorghum <u>1</u> /59
Total forage27	Soybean seed61
Vegetables29	Sugar Beet62
Bean29	Other seeds63

Possible trade errors in reporting or recording exports of corn and grain sorghum seed may have distorted any totals and unit price averages that include those seeds.

U.S. exports of seeds for planting totaled \$111.5 million for July-December, 1981, 17 percent below a year earlier. December exports of \$39.6 million were 2 percent below December 1980. High interest rates and generally good supplies in importing countries as well as the strength of the U.S. dollar have contributed to the slower export movement, especially for forage seeds. Importers are looking at inventories very closely and scheduling shipments to arrive at the latest practical date.

Vegetable seed exports continued strong for this period with a value of \$45.3 million, 41 percent of total seed exports. Forage seed exports were sluggish, totaling \$28.8 million, 19 percent below the first half of the 1980-81 marketing year. Grain and miscellaneous seed exports increased during the month of December, bringing the 6-month totals for corn, sorghum, soybean and sugar beet seeds to \$16.7, \$6.7, \$2.2 million, and \$800,000 respectively.

The European Community market continued to move slowly with \$30.1 million in value, 24 percent below U.S. shipments a year ago. Vegetable seeds made up 47 percent of shipments to the EC. Corn seed movements are improving with \$5.2 million to the EC during December, bringing the 6-month total to \$6.5 million, 4 percent below last year.

Mexico continues as the leading individual country market for U.S. seeds this year with \$18.1 million through December, 16 percent of exports to all destinations. Alfalfa seed exports of \$5.3 million and vegetable seed exports of \$6.4 million were the principle exports to Mexico. Japan continues as the No. 2 market for U.S. seeds. July-December shipments to Japan totaled \$13.4 million, including \$3.7 million forage seeds, \$6.1 million vegetable seeds, and \$2.3 million corn seed. Shipments to Canada totaled \$9.8 million, up 6 percent over last year. Mexico and Canada, the $_{\rm No.}$ 1 and 3 markets for this half year, received a quarter of total U.S. exports. The markets in Egypt, South Africa, and Australia have been especially strong with increases of 532 percent, 121 percent, and 49 percent, respectively, over the equivalent 6-month period last year.

Trade Alert

BRAZIL: Provisions for the growing season certification of sorghum seed concerning sorghum downy mildew (Peronosclerospora sorghi) in the United States have been accepted by Brazilian officials. For information contact: Export Section, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, Hyattsville, Maryland 20782.

USSR: The Soviet newspaper, <u>Izvestiya</u>, in a recent report, suggests the USSR may be considering increasing its use of hybrid sunflower seed, following the smallest harvest in two decades. If true, the change would represent a major change in Soviet policy, which has long emphasized development and production of open-pollinated rather than hybrid varieties. The USSR has done some work in sunflower hybridization, but commercial application has lagged. Imports of hybrid seed from outside the country will be needed if a hybrid seed planting program is initiated in 1982.

SAUDI ARABIA: Firm engaged in greenhouse vegetable production wishes to contact American exporters for greenhouse varieties of vegetable seeds. Contact: Eng. Magdy Negm, Kara Est., P. O. Box 1359, Makkah, Saudi Arabia. Telex: 440027 Karmec SJ. Phone: 556-5004/556-5478.

GREECE: Desires to import high quality forage seeds. Quantity open. Quote FOB or C&F Port of Piraeus, Greece. Bank ref: Credit Bank, Athens Tower Branch. Contact: Mr. John G. Phostiropoulos, 40 Alexandras Ave., Athens, Greece Phone: 8830-352. Cable: JOPHOSTIR.

SIERRA LEONE: Corn, peanut, and soybean seeds, high oil varieties, and vegetable seeds. Needed before start of season, which is April. Bank ref: Barclays Bank (SL) Ltd., Siaka Stevens St., Freetown, Sierra Leone. Contact: M. L. Swallow, General Mgr., African Commercial & Agricultural Enterprises, Ltd., 18 Wallace Johnson St., P. O. Box 1058, Freetown, Sierra Leone. Phone: 26109 or 26244. Cable: AFROCOM.

Prepared by Tobacco, Cotton, and Seeds Division FAS, USDA, Washington, D. C. 20250. For further information, call (202) 382-9491
